

DELTA EXTENDS MIDDLE SEAT BLOCKING THROUGH APRIL 2021

Hello Manoj,

Delta is continuing its industry-leading commitment to provide more space on board, as the only U.S. airline to block middle seats and limit capacity on all flights departing through **April 30, 2021**.

The airline has offered more space through seat blocking and reducing the overall number of people on board each flight since April 2020, consistently listening to its customers and prioritizing their preferences.

Delta will block middle seats in Delta Premium Select (where available), Delta Comfort+® and Main Cabin for parties of 1-2, while families and parties of 3+ can continue selecting a middle seat. On aircraft without any middle seats, the airline continues to block one aisle of seats and limit the total number of customers on board.

Blocking middle seats is one of more than 100 layers of protection in place to ensure a safe travel experience through the Delta .

Details on Delta's seat blocking policy can be found [here](#).

Thanks,
