

Escape the Ordinary!

Easing of Border Control Measures for Entry into Singapore

Dear Trade Partners,

Fully vaccinated travellers on Scoot (TR) and Singapore Airlines (SQ) will enjoy [guarantine-free entry](#) into Singapore.

From 26 April 2022, requirement for a pre-departure test (PDT) for entry into Singapore will be removed for both [fully vaccinated travellers](#), as well as not fully vaccinated children aged 12 and below. Prevailing visa requirements are still applicable.

Entry requirements for non-fully vaccinated travellers remain unchanged. All non-fully vaccinated travellers aged 13 and above who are allowed to enter Singapore are required to take a PDT within 2 days before departure for Singapore, undergo a 7-day Stay-Home Notice (SHN), and take a Polymerase Chain Reaction (PCR) COVID-19 test at the end of their SHN period.

Long-term pass holders (LTPHs) and short-term visitors (STVs) who are not fully vaccinated against COVID-19 and are aged 13 and above are not allowed to enter Singapore, with the following exceptions:

- a. LTPHs medically ineligible for vaccines
- b. LTPHs and STVs with other valid [entry approval](#) (e.g. for compassionate reasons)
- c. LTPHs aged 13 to 17, subject to the appropriate measures

Please click [here](#) for more information.

Scoot will continue to monitor the situation, as well as evolving regulatory guidelines. Do

visit our website for [travel advisories](#), [latest flight schedule](#) and [latest announcements](#).

Should you have any further questions, do contact your local Scoot office.

With Best Regards,
Scoot Sales Operation Team
