We are rethinking travel: more individuality and more comfort – in all classes of travel

Dear Mrs Sharma,

Join us for a look at the travel experience of the future. **Discover Lufthansa Allegris**, a new generation of onboard comfort that will revolutionize long-haul travel, from First Class to Economy Class, starting in 2023.

This is the most extensive product and quality modernization in the Lufthansa Group history – and more than 100 long-haul aircraft with over 30,000 new seats will be equipped with it in the next few years.

Here's a sneak peek at some of the highlight:

- **First Class Suite:** spacious, private closed-door suites providing maximum privacy and comfort
- **Business Class Suite:** For the first time, Business Class travelers can also look forward to their very own suite
- **Choice of seating options in Business Class:** With a total of seven different seating options, designed to meet your customer's individual wishes
- **Premium Economy Class:** This comfortable seat in an innovative hard-shell design, can be adjusted effortlessly without disturbing neighboring passengers in the row behind
- **Sleeper's Row 2.0 planned for Economy Class:** By folding up the leg rest and adding a mattress, passengers in Economy Class can relax and sleep more comfortably

We look forward to introducing you to a new era of travel. Uniquely different and modern. With more choices in seating comfort, meals and many other exciting features. It's a holistic and personalized travel experience for our passengers across all classes.

Yours sincerely,

Yours eXperts team India
