

Travel restriction lifted for CHINA-bound passenger from India

This is to inform you that the Chinese Embassy in India adjusted and optimize the testing requirements for China-bound passengers from India and it is effective from 14 November, 2022.

1. All the passengers traveling to China only need to take one nucleic acid (RT-PCR) test within 48 hours before boarding the flight to China, and apply for Green Health Code with a negative certificate.
2. Passengers travelling to China can choose any place in India or in transit according to their itinerary, within 48 hours before boarding the flight to China, and apply for Green Health Code from the Embassy or Consulate where the test will be conducted. The airline will check passengers with a valid Green Health Code and will not check the place of issue.
3. No extra requirements for passengers with a history of COVID-19 infection, close contact, suspected symptoms, and PCR test results showing Presumptive Positive and Equivocal results. All passengers can apply for Green Health Code with one Negative nucleic acid (RT-PCR) test result within 48 hours before departure.

We highly recommend to contact the Embassy for any updated guideline and requirement before the journey .for more details, please contact as per below
