CODESHARE PARTNERSHIP: AIR INDIA AND SINGAPORE AIRLINES

Announcing our expanded codeshare agreement with Singapore Airlines, effective 27 October. This means more convenient access and smoother travels to 29 additional destinations on the Singapore Airlines network across Australasia, Southeast Asia, and the Far East, using a single ticket.

We're equally excited to welcome Singapore Airlines customers on our flights within India and to several destinations westward to Europe, Africa, and the Middle East via our hubs at Delhi, Mumbai, and Bengaluru.
