

Stay connected while you fly

Did you know United AirlinesSM customers can send free messages on select flights via apps such as iMessage, WhatsApp and Facebook Messenger?*

How it works.

Follow these simple steps to access free messaging:

- 1.** Set your mobile device to airplane mode.
- 2.** Connect to United Wi-FiSM.
- 3.** Go to unitedwifi.com.
- 4.** Click on the "Free Messaging" option.
- 5.** Stay in touch in the air.

To check if this service is available on your flight, review the Amenities category in the My Flight section of the UnitedSM app. "Free messaging available on this flight" will appear if the aircraft has this feature enabled.

*Except select 787, 767 and 757 aircraft. SMS messages require a cellular network and are not included.
